

Matrix Toolkit Engineer Guide

Production Edition - Build 001 - 04-07-2026

Official Production Baseline. Cloud-only workflow. USB installation and install.sh are not part of the production workflow.

Scenario	When	Command
1	New router / Factory Reset	firstboot && reboot sh bootstrap.sh
2	Old routers one-time migration	BOOTSTRAP_MODE=update sh bootstrap.sh
3	Normal update after migration	matrix-update

Scenario 1 - Factory Reset

```
firstboot && reboot
```

```
cd /tmp
rm -f bootstrap.sh
wget -O bootstrap.sh https://raw.githubusercontent.com/MatrixFitness/Tool/main/bootstrap.sh
chmod +x bootstrap.sh
sh bootstrap.sh
```

Scenario 2 - One-Time Migration

```
cd /tmp
rm -f bootstrap.sh
wget -O bootstrap.sh https://raw.githubusercontent.com/MatrixFitness/Tool/main/bootstrap.sh
chmod +x bootstrap.sh
BOOTSTRAP_MODE=update sh bootstrap.sh
```

Scenario 3 - Normal Update

```
matrix-update
cat /tmp/matrix_update_github.log
matrix-version
matrix-doctor
```

Recovery

```
matrix-recovery
matrix-doctor
```

ZeroTier

```
matrix-zerotier
```

Important Logs

```
/tmp/matrix_bootstrap.log
/tmp/matrix_update_github.log
/tmp/matrix_recovery.log
```
